<https://syafwan.me>

Full-stack Developer with 2+ years of experience building and maintaining modern web applications. Proficient in the TALL Stack (Tailwind CSS, Alpine.js, Laravel, and Livewire) and experienced in developing with Vue.js and React. Implemented technical requirements for brands such as Fresco (Kapal Api), Good Day, and Quantum Indonesia, along with campaigns such as DinginAtauPanas (Kapal Api) and GoodDay Schoolicious. Experienced in developing scalable CMS-driven solutions, integrating RESTful APIs, and delivering SEO-optimized projects that enhance digital presence.

EXPERIENCE

PT Desain Tiga Selaras (DesignCub3) – Jakarta, Indonesia

Web Programmer (July 2023 – Present)

- Translated client briefs into functional web applications, ensuring high-quality delivery for prominent brands such as Fresco (Kapal Api), Good Day, Quantum Indonesia, etc.
- Implemented on-page SEO best practices to enhance website visibility, improving search engine performance and organic reach for client projects.
- Developed and optimized custom CMS solutions, streamlining content management processes and providing user-friendly documentation for clients.
- Executed comprehensive testing and debugging to ensure seamless performance and compatibility across various browsers and mobile devices.
- Managed end-to-end deployment, from staging server setups for client feedback to final production launches.
- Maintained long-term website stability through regular technical improvements, content updates, and proactive maintenance for recurring clients.

Indonesia Halal Training & Education Center (IHATEC) – Bogor, Indonesia

Web Developer Internship (July 2022 - December 2022)

- Built and developed a web management system to handle internal files.
- Created a proposal generator with four templates that works on the website.
- Maintained and updated the website to keep it running smoothly.
- Deployed the website to shared hosting for easy access.

EDUCATION

UNIVERSITAS PERSADA INDONESIA Y.A.I. (2023 – 2027) *Ongoing*

AWARDS

Top 40 CODEHERO by Web Programming UNPAS (2024)

Achieved Top 40 out of 277 participants in the WPU-Codehero, showcasing quick thinking and coding knowledge. Truly grateful for the opportunity to join and learn alongside many talented participants.

PROJECTS

OnlineBersama.com (2026 – Present)

<https://onlinebersama.com>

Contributed to developing OnlineBersama.com by performing UI slicing, converting design mockups into responsive and functional front-end interfaces to ensure a smooth and consistent user experience.

Quantum Indonesia (2025 – Present)

<https://quantumindonesia.id>

Contributed to developing and maintaining the official website for Quantum Indonesia, including CMS implementation to enable efficient content management. Ensured website stability, performed updates, and supported ongoing improvements.

Wink Smart Learning (2024 – Present)

<https://wink.co.id>

Contributed to developing and maintaining a company profile website for Wink Smart Learning. Built content pages and a registration system for trial bookings, along with website revamps to improve functionality and user experience.

GoodDay Schoolicious (2024 – 2025)

Contributed to developing a web-based submission platform for the GoodDay Schoolicious event campaign in the West Java (Jawa Barat) region. Implemented participant submission forms and handled large video file uploads to ensure smooth content submission and management.

Kopi Kapal Api Fresco (2023 – 2024)

<https://kopifresco.id>

Contributed to developing a product introduction website for Kopi Kapal Api Fresco, showcasing product information and brand content, and implemented a CMS to enable administrators to easily manage and update website content.
